

## **Blocks A-E – Supporters who were moved from their seat in this area last summer**

Some supporters were regrettably asked to relocate from their seats in the North Lower last summer, following the reduction to capacity and other safety measures that had been ordered under the terms of the Stadium Safety Certificate.

The ongoing improvements to the North Stand will continue with works in Blocks A-E from January 2022.

In the meantime, supporters in this area have the option to return to their original seat for the December home league games against Sheffield Wednesday (Wednesday, December 8), Morecambe (Saturday, December 11) and Oxford (Sunday, December 26).

However, from the home fixture against Wigan on Saturday, January 8, all seats in these blocks will be unavailable until the work is completed in time for the 2022/23 season.

All season ticket holders in Blocks A-E will need to select new seats for the second half of the campaign, so supporters may decide they wish to remain their existing seat for the remainder of the season, rather than the inconvenience of relocating again in January after just three games.

Affected supporters have been emailed a survey asking whether they wish to return to their old seats for the aforementioned matches in December, which should be completed and returned to the club by Wednesday, November 17. Those supporters who we have no email address on record for will be sent a letter.

If you feel you should have been sent an email, but have not received one, please contact [northlower@pompeyfc.co.uk](mailto:northlower@pompeyfc.co.uk)

If the club do not hear back from any affected supporter, then it will be assumed they wish to remain in their temporary seat for the remainder of the season.

Supporters who elect to move for the three December fixtures will also be asked in the survey whether they wish to return to their current seat in January or request the club to select a different one.

## **Confirming your seats for the 2022/23 season**

The North Lower will have a different seating configuration from next season, with the addition of 600 new seats.

A new seating map – which overlays supporters' current seats into the new configuration – will be created in March 2022.

Supporters will be contacted directly at this time, advising them of the new seating position and asking whether this is correct.

## **Thank You!**

We fully appreciate and understand the inconvenience that the relocation of seats has caused for a significant proportion of our season ticket holders, but if these works are delayed any further, then the capacity will reduce further and parts of the stadium could be closed completely.

The end result will be a better and safer stand, which will be future proofed to work hand-in-hand with any future planned extensions to the North Stand.

Portsmouth Football Club would like to thank supporters for their support and if there are any questions regarding the completion of the survey – or any part of the redevelopment work – then please email [northlower@pompeyfc.co.uk](mailto:northlower@pompeyfc.co.uk) or call the ticket office on 0345 646 1898 (option seven).
