

Blocks F-K – Supporters who were moved from their seat in this area last summer

Some supporters were regrettably asked to relocate from their seats in the North Lower last summer, following the reduction to capacity and other safety measures that had been ordered under the terms of the Stadium Safety Certificate.

The ongoing improvements to the North Stand will continue with works in Blocks A-E from January 2022, with works in Blocks F-K taking place over the summer.

In the meantime, supporters in Blocks F-K have the option to return to their original seat from the December home league games against Sheffield Wednesday (Wednesday, December 8), Morecambe (Saturday, December 11) and Oxford (Sunday, December 26).

One issue is that if you moved with someone whose seat was unaffected, then a small number of their seats may have been sold for these three games. However, all supporters would be able to return to their seats from the Wigan fixture on Saturday, January 8.

Affected supporters have been emailed a survey asking whether they wish to return to their old seats, which should be completed and returned to the club by Wednesday, November 17. Those supporters who we have no email address on record for will be sent a letter.

If you feel you should have been sent an email, but have not received one, please contact northlower@pompeyfc.co.uk

If the club do not hear back from any affected supporter, then it will be assumed they wish to remain in their temporary seat for the remainder of the season.

Should your seat be available from December 8 and you would like to return, then supporters will be issued with a new season card, which they will need to collect from the ticket office from Monday, November 29.

This card will need to be used by any supporter moving back to their old seat, as their existing card will no longer work at the turnstiles from December 8.

Confirming your seats for the 2022/23 season

The North Lower will have a different seating configuration from next season, with the addition of 600 new seats.

A new seating map – which overlays supporters' current seats into the new configuration – will be created in March 2022.

Supporters will be contacted directly at this time, advising them of the new seating position and asking whether this is correct.

To help with this, a series of opening evenings will be held at Fratton Park in March, so supporters can discuss their options with ticketing staff.

A dedicated phone line (0345 646 1898 – Option 7) and separate email address

(northlower@pompeyfc.co.uk) have also been created to deal with any queries relating to the North Stand.

Thank You!

We fully appreciate and understand the inconvenience that the relocation of seats has caused for a significant proportion of our season ticket holders, but if these works are delayed any further, then the capacity will reduce further and parts of the stadium could be closed completely.

The end result will be a better and safer stand, which will be future proofed to work hand-in-hand with any future planned extensions to the North Stand.

Portsmouth Football Club would like to thank supporters for their support and if there are any questions regarding the completion of the survey – or any part of the redevelopment work – then please email northlower@pompeyfc.co.uk or call the ticket office on 0345 646 1898 (option seven).
